

Acme Support — Support SLA

Business hours are Monday–Friday 09:00–18:00 in the customer's primary timezone, excluding regional holidays.

Starter: first response in 8 business hours. Business Plus: first response in 4 business hours.
Enterprise: first response in 1 hour for P1, 4 hours for P2.

P1 (critical): production outage or login failure affecting all users. P2: major feature broken with a workaround. P3: minor defect or how-to question.

Enterprise customers with two or more confirmed P1 incidents in a quarter may request an SLA service credit of 10% of that quarter's subscription fees.

Priority routing for Enterprise VIP contacts must be enabled by the account manager. If routing fails, the ticket still counts toward SLA once it is in the Enterprise queue.

Scheduled maintenance windows are announced 72 hours in advance and do not count as P1 incidents.
